

## FRESH PRODUCE HONOUR STALLS IN THE SHIRE

As Locals know and some Visitors appreciate, one of the proudest achievements of the Southern Forests – particularly evident in the Shire of Manjimup – is the quality, variety and abundance of fresh produce. We grow everything from stone fruits to staples, to gourmet delights such as marron, black truffle and wines.

Some of our farmers like to sell their excess at small roadside stalls as a favour to other locals. It's one of the privileges of living here that you can pull up at a neighbour's stall and buy the freshest produce around for a few dollars. In doing so, you know that the money you spend is going to the right place: to the people who grow the produce. It's an honour system. You leave the right money and take the produce you want. Some stalls now give their bank account details, so that you can pay by Electronic Funds Transfer (EFT). By taking advantage of this system you are supporting local growers and you are joining in with a neighbourly tradition which is what makes the Southern Forests such a great place to live.

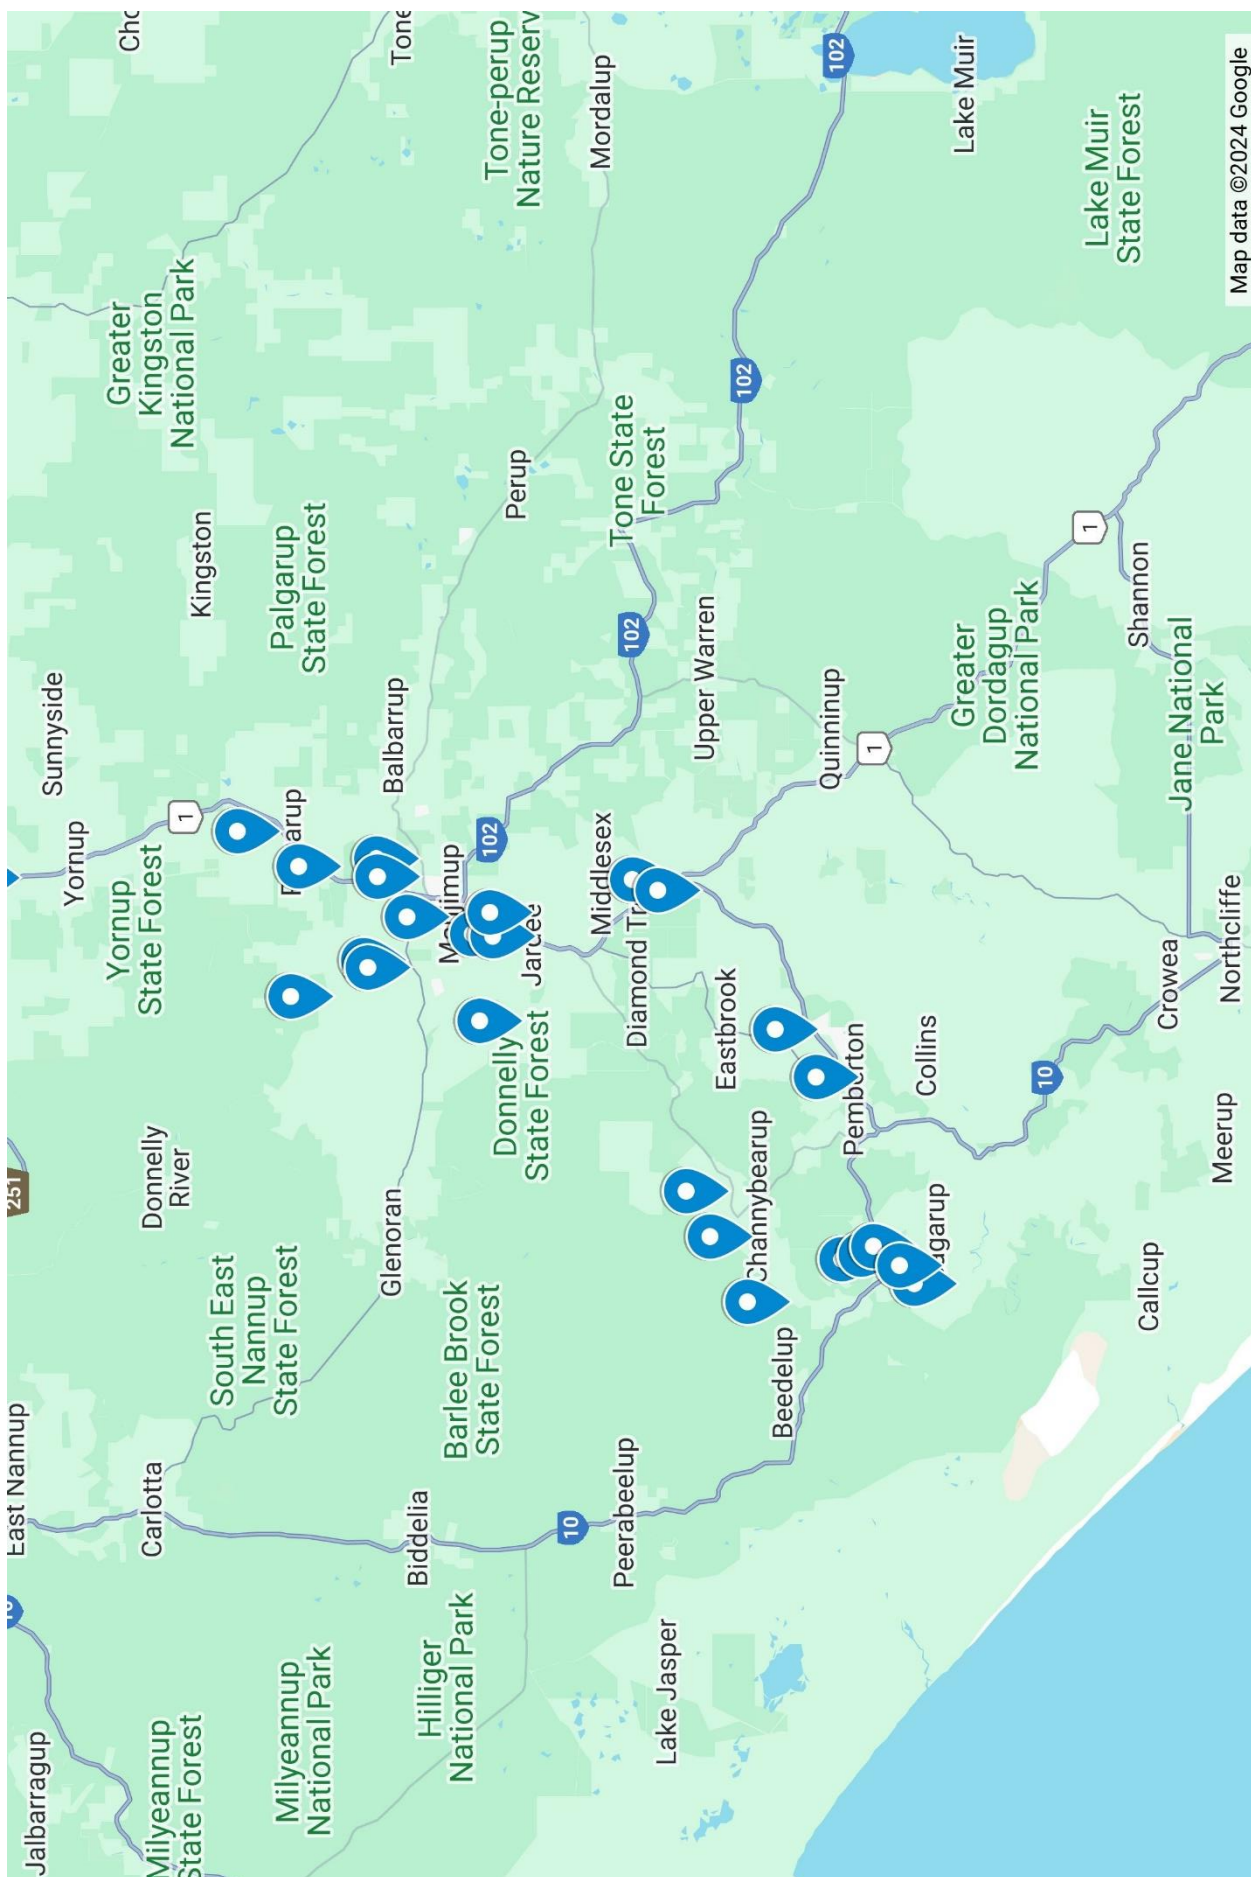

*The freshest at the right price where the money goes straight to the person who deserves it!*
